Unique offer Redemption Rate & Product Activation Rate

Mobio's solution has been creatively and profoundly leveraged by business units and marketing teams, leading to remarkable growth in **customer engagement**, **offer usage**, and post-registration **product activation rates**.

03.

Our Solutions

Achieving CUSTOMER EXCELLENCE with MOBIO all-in-one solution

Accelerate Revenue Growth & Maximize Personalization:

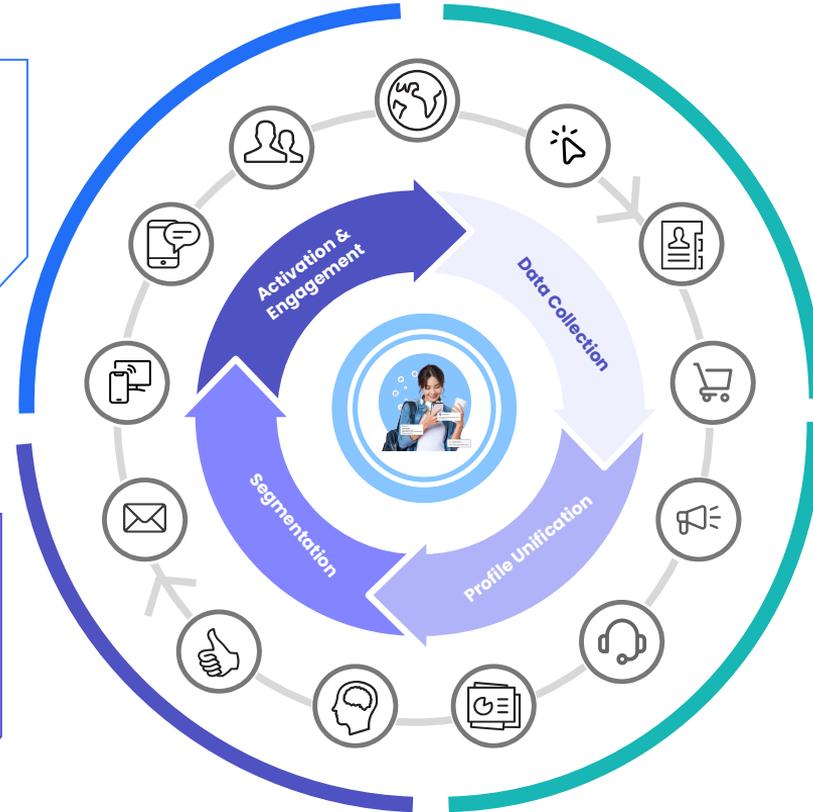

Leverage real-time Customer Data (CDP) to build hyper-personalized Journeys, ensuring highly efficient Ad Spend optimization

Marketing Excellence by Customer Data Platform

Enable Precise Decisions with a "Golden Profile" of Customer Data:

Provide a true 360-degree view and Predictive Analytics to accurately identify High-Value Customers (CLV) and proactively mitigate Churn Risk

Business Insights by Analytics Data Platform

Boost Sales Productivity & Shorten Business Cycle Time:

Equip your Sales team with a powerful CRM suite to professionally manage Pipeline, Opportunities, and Tasks, focusing exclusively on the most qualified deals.

Selling Excellence by Smart CRM for Sales

Optimize Customer Experience (CX) & Reduce Churn Rate:

Unify all service interactions (Tickets, Chat, Call) to enable fast, personalized responses, supported by a robust and easily accessible Knowledge Base

Service Excellence by Smart CRM for Services

Mobio at a Glance: **Architecture - Built for Trust**

Unified Data & Governance

We go beyond collection to normalize and unify data from disparate sources into a single “Golden Profile”. Our platform provides [flexible configurations](#), allowing enterprises to easily customize and enforce their specific data governance policies

Bank-grade Security & Compliance

Our architecture is engineered to meet the most stringent standards, [featuring multi-layered data encryption, robust access controls \(RBAC & ABAC\), and detailed audit logging](#) to ensure the absolute security of sensitive customer data

Flexible Deployment Options

Enterprises maintain complete control over their data. We support every deployment model: from our [convenient SaaS](#) (Mobio Cloud) to a full [On-Premise/Self-hosted](#) installation, ensuring 100% compliance with the enterprise's specific security and data governance policies

API-first & Open Architecture

Built on an 'API-First' philosophy, our platform [seamlessly connects with the client's existing core systems](#) (like Core Banking, LOS, ERP, CRM, etc). We provide robust APIs, Webhooks, and diverse integration options (e.g., database, message queue) to ensure smooth interoperability

High Performance & Scalability

Our architecture is partitioned into [OLTP and OLAP](#) workloads. This ensures real-time speed for operational tasks (OLTP) while optimizing resources for heavy data processing and analytics (OLAP). Its [horizontal scaling architecture](#) allows to add capacity seamlessly, guaranteeing performance even during peak loads

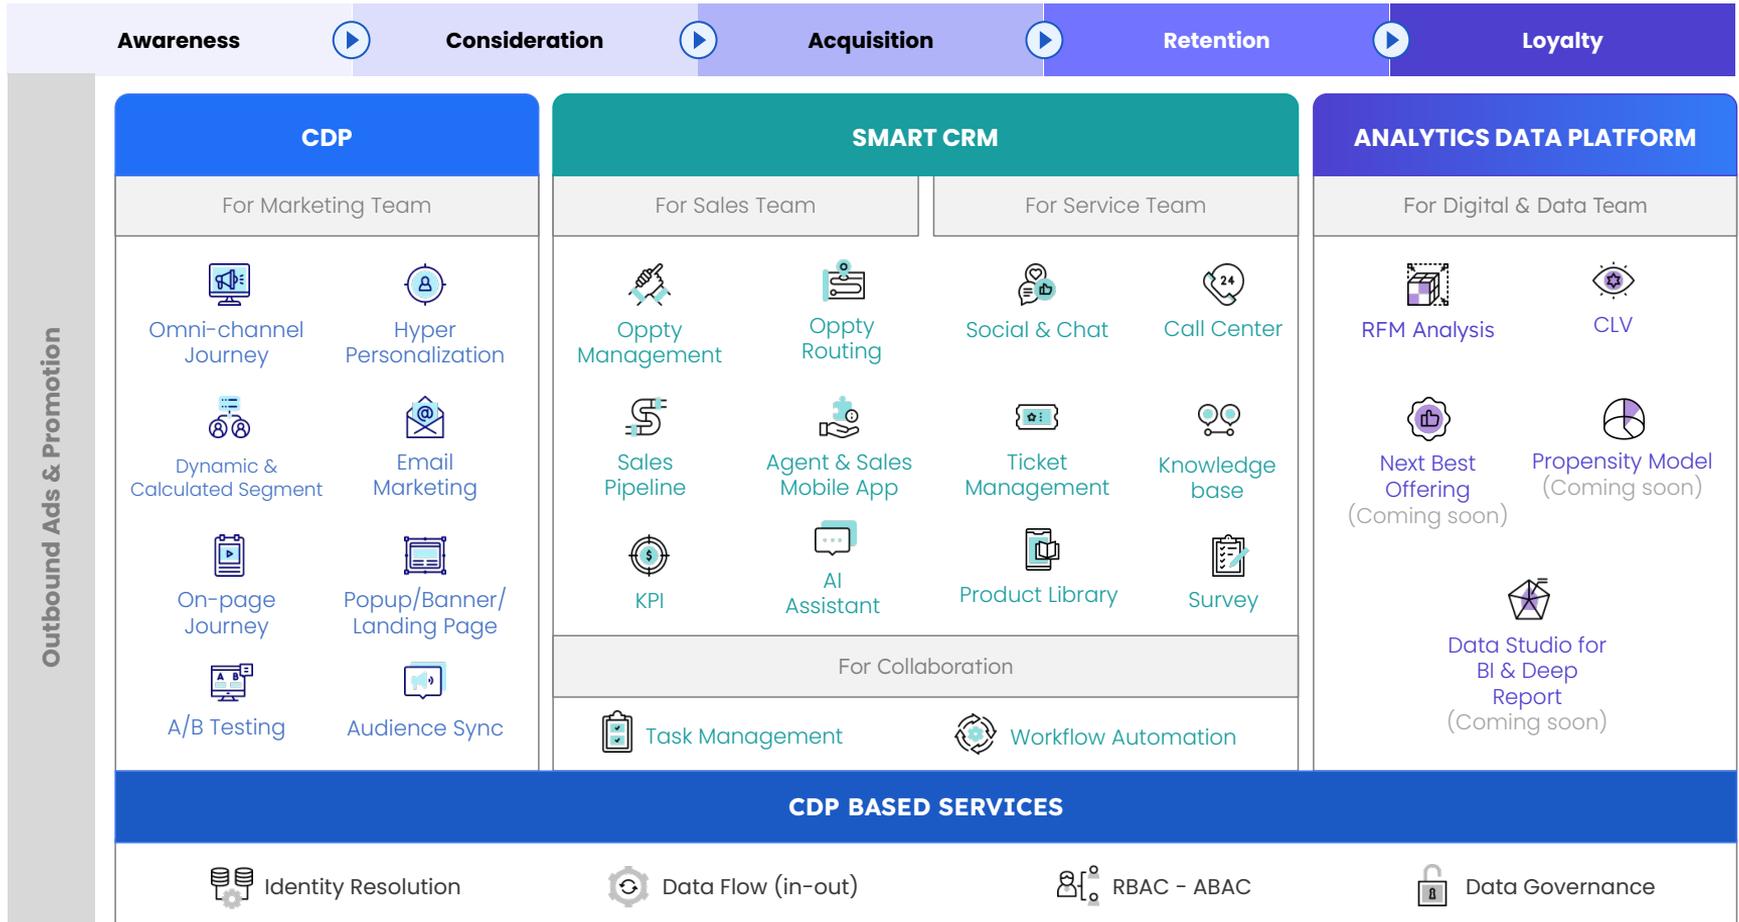

Future-proof & AI-ready

We don't just solve today's challenges. Our roadmap is focused on [AI capabilities & Low-code/No-code workflow](#) to enable unique business processes, ensuring your investment today continues to deliver value for years to come

CORE FUNCTIONS OF A CDP ACCORDING TO GARTNER

Activation CDP = Marketing Automation + Engagement Platform + Customer Data Platform

	Marketing Automation	Engagement Platform	Activation CDP
Architecture	No data engine.*	Built-in basic data engine.	Built-in advanced data engine.
Data Processing	Attribute structured data. Sourced from: CSV, XLSX file imports, CRM, 3rd party.	Behavioral semi-structured data. Sourced from: <ul style="list-style-type: none"> Website behavior tracking Mobile app behavior tracking 	All types of customer data: <ul style="list-style-type: none"> From offline to online From attribute to behavioral data
Data Storage & Processing Capabilities	Reports only available after campaigns end. No event tracking and storage.	Real-time reports. Data stored for 2-3 months. No deep processing to build 360° profiles	Real-time reports. Longer data storage (6-12 months). Capable of unifying and processing data to build 360° profiles.
Personalization Capabilities	Basic Personalization (field insertion, macro segmentation)	Personalization based on real-time tracked data.	Advanced Personalization capabilities (Real-time, one-to-one & combination of online & offline data).
Business Value	Improve productivity thanks to automation	Instant interaction across digital channels, driving conversion rates (CR) & reducing drop-offs	Create automated end-to-end customer journeys across all touchpoints with 1-1 personalization.

Why Mobio?

Why choose Mobio as Your Strategic Partner?

Proven Success Stories

We are proud to be the pioneering vendor in Vietnam with hands-on experience and successful implementation in all of our CDP, CRM and related delivery projects

Customizable, Reliable & Scalable system

We understand our customer' unique needs, which is why we designed our solution to be highly customizable, configurable and super easy to integrate with other systems

MOBIO
CDP & CRM Platform

Optimal Investment

We tailored our products and services to your actual needs. As a result, we are able to offer pay-as-you-go pricing plan while ensuring quality and capability to grow with your business in the long run

ROI-Oriented

We don't just deliver a platform; we deliver measurable business outcomes. We commit to accompany you with local support and proven expertise.

Local Expertise, Global Standards: The Smart Choice for BFSIs & Enterprises

	Mobio Integrated Solution	Global Solution Providers	In-house Development
Vertical & Local Expertise	Deep local knowledge and strong vertical expertise, especially for BFSI and Enterprise.	Captures global trends, but fails to grasp the specific characteristics of emerging markets like Vietnam & SEA	Deep understanding of internal operations but lacks an industry-wide perspective and market trends.
Deployment Options	<ul style="list-style-type: none">✓ SaaS (Mobio cloud)✓ Self-hosted	SaaS (vendor's cloud)	Self-hosted
Time-to-market	3-6 months	12-18 months	18-36 months
Renovation & Maintenance	Product is renovated, enhanced, and features are added monthly.	Product is renovated, enhanced, and features are added regularly	Post-go-live, focus is primarily on maintenance.
Local support	Dedicated local Customer Success, Technical, and Product teams are actively engaged throughout the journey	Limited local support due to reliance on a local middleman and slow response from foreign experts. Extended SLA.	Direct support transfers from development team to the Application Management team
Adaptability	No-code/low-code and highly customizable architecture, ready for adaptation and changes with shifting business needs	High customization cost and extended timelines for changes, reliant on offshore expertise	Rigid structure based on initial requirements; adapting to business changes requires a new project initiation.
Return on investment (ROI)	Optimal TCO and rapid time-to-value. Our all-in-one platform eliminates integration complexity and fragmented licensing.	Premium cost, multi-licensing and vast scope lead to underutilization, making clear ROI justification challenging	No information

Let's build your own Data-Driven Future!
